INTRODUCTION

I'm a third-year CSE student at VIT, Vellore, focusing on full-stack web development. Currently mastering Java and DSA, I'm known for being a fast learner. Passionate about creating innovative web solutions, I look forward to contributing to the tech industry through my quick adaptability and skills.

EDUCATION

- **Graduation** - CSE with Specialisation in IOT - 2025

CGPA - 7.9
- **High School** - 12th Class - 2021
Brilliant Public School - Bilaspur CG
Percentage - 80.4%
- **High School** - 10th Class - 2019
Brilliant Public School - Bilaspur CG
Percentage - 84%

PROJECTS

- CCC-SECR-BSP - It is a project for Bilaspur division's railway station staff, facilitating easy search for co-employees, access to documents, books, and event images. It prioritizes security with a login feature and offers a theme change option (Dark/Light) for user convenience.

- Vamshee Techno School - This website is a comprehensive platform for students, providing easy access to notices, academic details, and admission-related information. The website includes a gallery page with images and YouTube links of all school functions and events. The admin section facilitates efficient management of student and teacher information, allowing easy downloading of data into an Excel sheet with just one click for administrative convenience.
